THE CHARLEROI MAIL

VOLUME XXI—NO. 34 CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA. THURSDAY, JULY 15, 1920 TWO CENTS

WIRETON SLAUGHTER HOUSE IS PLACED UNDER THE BAN

Was Found In Unsanitary Condition and Prosecution May Follow

CHARLEROI SHOP INTERESTED

Health Officer Wm. Darby, in company with Burgess Woodward was in Monessen on Friday, in consultation with the Monessen Board of Health concerning a certain slaughter house located on the property of Mrs. T. Dusitch in Wireton near the end of the bridge and in which I. Neiman, of the Central Meat Market of Charleroi is interested.

A number of complaints have been made to the Charleroi Board of Health concerning this slaughter house, as it is said beeves butchered for the local trade have been slaughtered there. The local board was not sure of its jurisdiction in the matter and wrote the State Health Board with reference thereto. A reply was received from D. V. Ness nuisance officer and addressed to J. N. O'Neil, president of the Charleroi Board in which he said that: "It occurs to the writer that the slaughter house people will be made to appreciate the importance of bringing about improved sanitation in and about their establishment if your representative would give them to understand they will not be allowed to dispose of their product in your town until they effect a thorough cleaning up."

The local board was also informed that J. B. White was the state representative in Rostravaer township where the offending slaughter house is located and he was also called into consultation.

Members of the Monessen Board, together with Mr. Darby, Burgess Woodward and Mr. White made an investigation Wednesday afternoon and theconditions surrounding the place were found to be most deplorable. Mr. Darby said it would be impossible to describe the situation as they found it, and Mr. White said that he would institute legal proceedings at once against the place unless it was thoroughly cleaned and made sanitary. Mr. Darby, however was of the opinion that it would be impossible to make the place sanitary, as it is located in the basement of a dwelling house, a place totally unfit for such work. The residents of the locality have been protesting for some time against the place, but apaprently were ignorant as to how to proceed until the Charleroi Board of Health instituted an inquiry.

After a thorough inspection of the property, Mr. Darby told a representative of Mr. Neiman that no more meat slaughtered in that house would be permitted to be sold in Charleroi, until the place had been thoroughly cleaned and placed in an acceptable sanitary condition.

A man named Rosenthal of Monessen is also interested in the slaughter house with Mr. Neiman and it is likely the Monessen Board will take action similar to Charleroi in the matter. There is said to be a cess pool in the cellar of the house through which all the drainage from the building as well as the slaughter house runs.

In a statement made Wednesday afternoon, after returning from Wireton, Mr. Darby said that he proposed to see that the orders of the local board of health in reference to this place are strictly enforced.

ANOTHER BIG COAL SALE IN WEST BETHLEHEM

By a deed dated June 18, 1920, William F. Wise and others, convey the Clyde Coal company 183,654 acres of the Pittsburg vein of coal in West Bethlehem township, the consideration being given as $1. The revenue stamps show a consideration of about $183,000. Also 34, 8213 acres of surface, same township, consideration $1. The revenue stamps indicate a consideration of about $6,006.

MORE PROMISES FOR COAL CENTER ROAD

Kerfoot W. Daly is in receipt of a letter from W. D. Ubler of the State Highway Department, with reference to the survey and plan for that section of the Speers-Coal Centre road from Allenport through the property of the Pittsburg Steel Products company. Mr. Ubler says the survey and plan for this work have been issued, and that he will again call the attention of the District Engineer with reference to this work.

It transpires that the State Highway Department is being reminded from time to time about this important highway and it is now contemplated to call the attention of the county commissioners to the fact that it is up to them to secure the necessary rights of way for any relocation of the road that may be necessary. Citizens of this section of the valley have not forgotten the necessity of the river road leading to the south, along the river.

WELL KNOWN ATTORNEY MARRIED ON THE FOURTH

Announcement is made of the marriage of Miss Maude Spidell of Bedford, a former resident of Charleroi, now located at Greensburg, and Hugh J. Fergus, Esq., of Charleroi. The ceremony took place at Cumberland, Maryland, on the 4th of July.

RED CROSS MEETING AT THE COUNTY SEAT

A meeting of representatives of all branches and auxiliaries of the Washington County Chapter of the American Red Cross has been called for July 21, at 1:30 o'clock in the public meeting room of the court house at Washington. This call does not affect Charleroi or any of the local auxiliaries, which is a separate organization.

Contract Awarded to Rebuild The Finleyville-Library Road

The commissioners of Washington county on Wednesday decided to award contracts for resurfacing some three miles of the Washington and West Middletown road and the Finleyville-Library road, the latter being about three and one-quarter miles in length.

The work on the Finleyville-Library road will be done by the Donora Construction company, it being the lowest and best bidder, while the George S. White company was given the contract on the Washington-West Middletown road.

The contractors assured the commissioners that they believed their efforts to obtain a sufficient supply of materials had met with enough success to justify them in getting started and that they could possibly procure what was necessary as the work progressed.

Having before them, however, the fact that all sorts of road materials are scarce and shipping facilities far from normal, the commissioners deemed it best to let the contract for only a portion of the West Middletown road.

The cost of resurfacing these highways will be approximately $40 000 per mile. These figures appear to be entirely safe at present when consideration is given to the greatly increased cost of everything that enters into the work and especially in view of the fact that the resurfacing means practically the rebuilding of these important roads which have become worn and through hard usage.

With the exception of awarding the contracts and the usual routine matter required in the building of new roads, From with these very patent and favorable suggestions presented, the commissioners were a bit hesitant about awarding contracts at prices that might appear to some of the citizens of the county as being too high, but there have been insistent demands that these two very necessary and prominent routes of travel be improved, as they have practically "gone to pieces" and some of the heaviest taxpayers, realizing the general advance in all commodities, have advocated their reconstruction at "almost any cost."

When the roads shall have been rebuilt they will be taken over by the State Highway Department and the county will be relieved of all expense of future maintenance.

JUDGMENT AGAINST THE ACME BREWERY

Judgment in favor of the plaintiff for $1,540, with interest from February 1, 1920, is decreed by the Washington county court, in an opinion handed down in the suit of W. W Piper against the Acme Brewing company of Bentleyville. Mr. Piper sued the defendant company to recover his salary as manager of said brewing company. Several complications arose as to the right of the plaintiff to recover. As to the question of the right of the trustee in bankruptcy of the plaintiff to hold Mr. Piper's earnings the court concludes that these earnings belong to Mr. Piper.

SHOP CLEANED UP BACK IN BUSINESS

The meat shop of Savage Brothers, at the corner of Crest avenue and Eighth street, which was closed on Tuesday by Health Officer Derby until it had been cleaned up and made sanitary, is again open for business, the proprietors having complied with all the requirements of the Board of Health.

OLD RIVALS WILL PLAY SERIES OF GAMES

A series of three games has been arranged between the Charleroi Independents and the Page Steel team of Monessen, all of which will be played on the grounds of the latter team. The series will begin in about two weeks, but the dates have not yet been agreed upon.

DEFENDANT AVERS THAT ORDINANCE IS ILLEGAL

In the suit of the borough of Bentleyville against Roy J. Waychoff, involving a municipal lien for improvements on a certain street in said borough, in the matter of a rule for judgment for want of sufficient affidavit of defense, the court has handed down an opinion discharging the rule. The defendant arises a legal question as to the entering of the judgment, averring that he was not given proper notice of theproposed assessment against him. He also avers the ordinance was illegally enacted.

UNIONS LOSE GAME TO VICTORY HILL

The Union A. C. baseball team lost a fast and interesting game to the Victory Hill nine Wednesday evening by a score of 2 to 1. The feature of the game was the pitching of Risher of the visitors, who allowed the locals but one hit. Fournier of the locals allowed the visitors but three hits. Saturday the Unions will play the Charleroi Independents at the local park. The game will be called at 5 o'clock p. m.

Every American citizen will appreciate the following program Thursday evening at the High school auditorium. America. Invocation; violin solo, Miss B. Bush; Welcome address, Burgess Woodward; solo, Mrs. W. B. Prester; announcements; solo, Louis Deppe; address, Col. Roscoe Simmons; solo, Louis Deppe. 34-t2-*

COAL SITUATION SHOWS NO BREAK IN PREVAILING PRICE

Peak is Now at $11 per Ton at the Mines, with Increasing Demands

CARS WOULD RELIEVE SITUATION

Possibility of a return to government control of the fuel industry, remote as it apparently is, has caused no reaction in the coal and coke markets. Both are quite taut with extreme prices prevailing. It may be noted however, that the upward price trend has been checked. That feature of the situation may be significant of a peak to prices or it may mean that the coal consuming public is taking a breath as it watches the various efforts to relieve the car situation before resuming the feverish bidding which has sent the local fuel markets ballooning ever higher within the past two months.

Restoration of tidewater coal shipments by permit following a suspension of two weeks due to railroad labor conditions at Baltimore and Philadelphia, has again made export coal the dominant factor in the coal market. A score or more permits are reported to have been issued for the Canton and Curtis Bay piers and this region will likely contribute its share to the tonnage assembled on them. Export buyers are offering $11 at the mines for certain grades of coal, while a lower grade brings $10.75.

The markets for other grades of coal have quite naturally conformed to these prices. Steam coal is quoted at $11 and because by-product coal can be used for that purpose, it also has taken the high range. Shipments to public utilities and other domestic consumers have similar price level. The demand for coal from this district comes principally from the eastern market and $11 at present seems to be the maximum figure consumers are willing to pay. The situation, however, is so uncertain that yesterday's maximum figure may be tomorrow's minimum. The market is such that consumers are naming the quotations and their need seems to be so acute that they are not inclined to quibble about the price.

The operators in this district point out that the only thing needful to bring about an adjustment of prices to a lower level is a clearing up of the transportation tangle. Once this is an accomplished fact cars will become plentiful, their movement would be the natural working of the law of supply and demand just as the present market has resulted from the fact that the railroads are not able to deliver sufficient tonnage to meet the demand.

REGISTRATION AND ASSESSMENT DATES FIXED

Dates which will govern proceedings in advance of the November election have been announced at the department of the secretary of the commonwealth. Harrisburg, which has completed the official record-ing of the results of the May primary and is preparing for certification of the official ballots in the fall. The last days upon which votes may be assessed for the November election are Tuesday, August 31, and Wednesday, September 1.

ICE SUPPLY QUITE SHORT AT DONORA

Donora is said to be threatened with an ice famine, due to the closing of the Webster-Donora bridge. No ice is manufactured within the borough limits, and the residents are compelled to secure the greater part of their supply from Monessen. When the bridge was closed for completion of repairs, delivery was made impossible, as the huge ice trucks found it impossible to make the roundabout trip through Lock Four. As a result no ice has been received in the town for several days. Retail dealers tried to secure assistance from Monongahela but found the supply there had been contracted for. They then called on the plant at North Charleroi to have a supply shipped by freight.

NO MORE ARRESTS IN MINE ROBBERY CASE

No further arrests have been made in connection with the robbery of the Vesta mine paymaster, while on the way to pay the miners at Ritcheyville Monday forenoon. Officers are working on the case, and are making investigations in Pittsburg, following clues said to have been discovered there. The Vesta Coal company miners were paid yesterday, the paymaster making the trip through the mine under guard and arriving safely after an uneventful trip.

ATTENTION!

Do you want to enjoy the best program that America affords? Then hear Col. Roscoe Simmons, America's greatest orator, and Mr. Lois Deppe, dramatic baritone. Mr. Arthur Ridout (accompanist) High school auditorium, July 15, 1920 8 p. m. Admission 75 cents. 28tf*

If you play for high stakes in the game of life, you at least may win some middle-sized ones, but if you play for small ones you can only win small ones.

ROUGE-POT NEXT.

It was suposed that tobacco was next on the list of things marked for destruction or exile by the industrious members of the W. C. T. U. and that, following promptly on the heels of the victorious battle against alcohol, guns were already unlimbered preparatory to the pouring of continuous broadsides into "the fragrant weed." There had, indeed, been reports to this effect, but the news now comes that the rouge-pot is first to be dealt with by the Brooklyn Union and if the ladies of the Union generally join in this crusade, smokers may temporarily enjoy some measure of peace as they watch what might be described as an internecine war within the sex line. "Painted faces must go," the Brooklyn commander is quoted. "The W. C. T. U. will endeavor to wipe out the cosmetic evil. The popularity of paint and powder has reached the stage where it behooves all Christian women to put forth their best efforts to destroy these demoralizing influences."

When in the fifteenth century Savonarola induced the women of Florence to cast their rouge-pots into his "bonfire of vanities," he appealed to them against dishonest sham in the name of religion. Reformers of the esthetic type would now make a similar appeal in the name of good taste. But, after being largely responsible for the eighteenth amendment and the Volstead act, will the ladies of the W. C. T. U. be content to stop at mere moral suasion in anything that they seriously undertake? Suppose that painted faces refuse to disappear at their bidding, what then? Without venturing to answer, it may be remarked that the desire to fix the habits of the people through legislation and law is something that grows with practice.

Undoubtedly a painted face is an unpleasant spectacle not merely because of its former disreputable associations but but because many a woman or girl thus misguidedly mars the beauty with which nature has endowed her. An end of the practice is desirable from the standpoint of good looks alone. Nevehtheless something is to be said in favor of individual freedom of choice in this as in other matters. The right of the woman of civilization to daub her face with too much color is at least as sacred as that of the savages to streak his body round like a zebra even though the spectacle be as unwelcome to persons of taste in the one case as in the other. So it is to be hoped that the ladies of the W. C. T. U., like Savonarola, will be content with chastening sermons, stopping short of another Constitutional amendment and Volstead act.

MORE "LESS" DAYS

Coal operators and dealers are steadily repeating the warning that unless there is immediate relief from the car shortage at the mines, workless, heatless, lightless days will be so common next winter that the similar experience of the war days will be completely overshadowed. One of the largest operators of the country is cited as authority for the statement that twenty mining properties in Illinois which normally produced 50,000 tons a day have for months averaged only about one-fourth that output.

Lack of cars is cited as the sole reason. Cars which cost $800 each before the war are now $3.300 each. Even at this price their production cannot fill demand. At this period when production and transportation should be at their best, and reserves should be piling up for the winter, the output of coal is barely equal to the current demand. The worning of serious difficulties next winter therefore seems well founded. But the shortage of coal cars cannot be attributed solely to the depreciation of rolling stock or the high cost of replacements. Automobile manuacturers are driving many new cars to market, but at the same time they are using open top cars extensively for long distance shipments. In this, it would seem, they are showing singular lack of foresight. These cars should be hauling coal, not automobiles. If they do not haul coal now instead of automobiles it seems certain that there will be no coal available for the manufacture of automobiles later.

Manufacturers would do well to study this situation and agree on methods whereby all the available coal cars should be used exclusively for transporation of coal. Neither the mines nor the railroads seem to be able to solve the difficulty alone. Unless every interest involved co-operates it appears that the problem will go unsolved and the heatless, workless, lightless days will develop from a warning to a reality.

It is sometimes discouraging not to be believed when you tell the truth, but maybe, sometimes people refuse to believe the truth when others tell it about you.

Income taxes would not be so difficult to pay if they bore some other name than "taxes." Nothing makes a man madder than to have to pay any kind of a tax.

Tell the world your troubles and it will pretend sympathy and break away; tell it of your prosperity and it will try to sell you something.

Hard work may not bring you happiness nor wealth, or it may, but one thing it is sure to do is to keep you out of meddling.

COLUMBIA NOVELTY RECORD ON RUSSIAN BALALAIKAS

And Special Summer Dances on Columbia Records This Month

The balalaika, big brother of the mandolin, is the instrument which plays the Columbia Novelty Record this month. The Russian Balalaika Orchestra conducted by S. S. Samuels, plays the waltz "Love and Money" and some popular Neapolitan melodies. The harmony of a balalaika orchestra is richer and deeper than that of an equal number of mandolins.

The Columbia Graphone Company has gathered a large collection of special summer dance records this month. These were selected from all the best of the latest Columbia dance records.

Two of the leading records on this list are the Art Hickman Orchestra's two fox-trots, "Peggy" and "Tell Me Why," and the coupling of the fox-trot "Only," by Prince's Dance Orchestra, with the fox-trot "Chinese Lullaby," by the Waldorf-Astoria Dance Orchestra.

ARREST HUSBAND OF WOMAN HELD FOR MURDER

Not satisfied with the story told by Mrs. Nancy Green of the circumstances which surround the murder of Charles Timmons, who was shot and killed early last Sunday morning in Brownsville, the Fayette county authorities have caused the arrest of the woman's husband, Charles Green, in the belief that he knows something about the murder. He has been paced in the Fayette county jail.

WILL HOLD JOINT PICNIC AT OAKLAND PARK

The congregations of the First Presbyterian and the Methodist Episcopal churches of Monessen have arranged to hold a joint picnic at Oakland park on Wednesday, July 21. Special cars will leave Monessen for the park at 9:30 o'cock in the morning. A special program of sports will be arranged for the occasion.

COMMON WITCHHAZEL FINE FOR SORE EYES

It is surprising how quickly eye inflammation is helped by common witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. One elderly lady, who had been troubled with chronic eye inflammation for many years, was greatly helped in two days. We guarantee a small bottle of Lavoptik to help ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE. Hennings Drug Store corner Fifth and McKean.

Notice

Six heifers came to my place over a week ago and I cared for them since that time. The owner of same is notified to call for them and pay the expense incurred.

REWARD—A reward of $25.00 will be paid for the arrest and conviction of the party or parties who, on Tuesday night broke the locks on the refreshment stand and bath houses at the bathing beach. Send information to John B. Schafer, McKean avenue, who will gladly pay the reward as above stated. 34-t2

ANNIVERSARY OF THE SECOND MARNE

Today, July 15th is the anniversary of the beginning of the American offensive at the River Marne in France. It is also the anniversary of the baptism of fire of Company A, 110th regiment of Monongahela, when so many men of that organization were killed and wounded as they were moving up into position on that fateful day. The offensive began that day never ceased until and Eighth street, which was closed mistice was signed.

HILLMAN COMPANY BUYS ANOTHER STEAMER

It was reported yesterday that the Hillman Transportation company had purchased the steamer Keystone from the Dravo Contracting company and that the boat will be used principally in towing coal on the Allegheny river. The Keystone was formerly the steamer W. C. Jutte, which was built at Brownsville in 1901.

STEAMER CLARK MADE INTO A MODEL BARGE

The steamer Samuel Clark, recently taken from Elizabeth to Pittsburg, having been purchased by Capt. J. F. Butts of Carrollton, Ky., will be made over into a model barge and will be used in the transportation of tinplate. The old steamer Pacific has also been transformed into a model barge and is now in use on the Ohio river.

Mrs. Hannah Watkinson and son Robert have returned after a three weeks' visit with friends and relatives in Indiana. They were accompanied home by Mr. and Mrs. Jos. Tompkins, and daughter, who leave today for Philadelphia, from where they will sail on the Hertford for an extended trip with friends and relatives in England.

Figs Always in Demand.

The fig yield of the vilayet of Aidin, Turkey, has risen from approximately 9,000 tons raised on 10,000 acres of land about 20 years ago, to about 22,000 tons raised on 25,000 acres. However, this advance in supply has not kept pace with the demand, and prices of figs have steadily risen. The big producing areas are, under normal conditions, exclusively tapped by the Ottoman (Aidin) Railway company's system. The orchards, located mainly in the Meander valley, are owned chiefly by Turks.

Historic Bells.

The largest bell ever cast was done in Russia in 1653, and to the intense disappointment of its makers it was cracked in the casting. The bell weighed 198 tons. The earliest record of bells is to be found in Exodus, where they were used as trimming for Aaron's robe at the hem, "a golden bell and a pomegranate, a golden bell and a pomegranate." The pomegranates were in brilliant colors and the bells tinkled to announce to the people when he came and went from the altar.

The Woodcock.

The woodcock provides one of the finest examples of protective coloring that nature has ever made. His bright eyes, however fitted for the night work to which he puts them, are sometimes his betrayer. The female woodcock is larger than the male and its weight varies as widely as to run between eight to twenty-seven ounces. Woodcock is a tremendous glutton, so he is fat. The woodcock can fly either as lazily as a rail or as swiftly as a swallow.

Wide Choice Afforded.

Edward had an uncle who owned a grocery and market. On Saturdays it was Edward's delight to go there to help. A neighbor chanced in, and finding Edward there, she thought she would find out how much the little fellow knew about business and said: "Ed, have you chickens today?" The youngster's reply was: "Yep, we have all kinds, alive, dead, dressed and undressed."

Hydrographers Know the Sea.

A person who prescribes ocean routes for steamers is known as a hydrographer. He makes maps and charts of the seas and other waters. He determines and reports the condition of navigable waters, whether ocean or inland, charting the coasts and rivers, determining depths, the quality of the bottom, the times of the tides and measuring the currents.

Bridal Cakes.

The bride cake which so invariably accompanies a wedding nowadays and which must always be cut by the bride, may be traced back to the old Roman form of marriage by "conferreatio," or eating together. So also among the Iroquois the bride and bridegroom used to partake together of the cake of Sagamite which the bride always offered to her husband.

Responsibility.

Nothing can be so inspiring to a human being as the idea that he is of value, that his help is really wanted. Nothing can so enforce the doctrine of responsibility as the realization that it rests with us to choose whether we shall mend or mar, shall beautify or deface, some portion of the work.—Oliver Lodge.

Justice Greatest of Virtues.

The sense of justice was never born in the human heart. This divine virtue is at variance with the instincts of the individual and nature itself is essentially non-just. Justice is the flowering of all the other virtues—the heavenly endowment of rare and great souls only.—Sir Richard Cooke.

MOTORISTS FINED FOR ORDINANCE VIOLATIONS

A number of $1 fines were imposed by the Mayor of Uniontown, on Monday evening, on a number of violators of the city parking regulations. In some instances the autoist was excused, but in the majority of cases pleaded igorance to the regulations and paid the fine. A number of forfeits were made when no answer was made to the calling of the defendants. Under the provision of the ordinance automobiles are only allowed to park 15 minutes in the barred zone.

A baby know more than some men. You can't fool a baby by making it think water is milk, but you can fool lots of men by making them think blue sky stock is a good security.

Even though two could live as cheaply as one—and they can't be more than half—every young man should remember that in the game of matrimony two isn't the limit.

DONORA POLICE MAKE RAID ON BOOZE JOIN.

The Donora police at an early hour Sunday morning, raided the premises of John Gronna, in West Columbia, and seized four boxes of Jamaica ginger and a quality of "pickhandle." It is said that Gronna's place is well known not only in the Donora community, but by many peope in this section of the valley who have made frequent trips there to get liquid refreshments.

A False Standard of Culture has gained ground in this country which looks upon the bearing and rearing of children as something coarse and vulgar and to be avoided, but the advent of Eugenics means much for the motherhood of the race. Happy is the wife who though weak and ailing depends upon Lydia E. Pinkham's Vegetable Compound to restore her to health and when headaches and backaches are a thing of the past brave sons and fair daughters rise up and call her blessed.

Woman In Bed Six Months; Two Bottles of Reese Formula R-11 Put Her On Her Feet Again

Tells of Her Experience in Statement to the Public

Miss Calie Stevens, who lives at Eleventh and Lorraine Streets, Ironton, Ohio, was a victim of rheumatism in its worst form. She was confined to her bed for six months with doctors in attendance. After taking two bottles of [illegible] she was able to leave her bed and get about the house and soon continues to improve.

Miss Stevens in a statement says: "I have suffered with severe pains in my back and arms and limbs and was confined to my bed for six months. After the doctor had completely failed to give me relief I began taking The Reese Formula R-11. After the second bottle I was so much better that I was able to go down stairs to my meals. My appetite has improved and I feel better in every respect. I want to recommend The Reese Formula R-11 because it has worked wonders in my case after I had given up hope."

If you suffer from rheumatism, indigestion, nervousness, biliousness, lumbago or stomach, liver and kidney trouble in any form, I will do for you what it has for others in this city and elsewhere.

If you wish further information, write direct to our Medical Advisor, Medical Department, The Reese Formula Co., Huntington, W. Va.

LITTLE BOYS AND GIRLS

with little accounts in this bank grow to be big boys and girls with big accounts.

They, their accounts, and we all grow together and the good we can accomplish for ourselves and the community has absolutely no limit.

The sunny faces of our youthful patrons means much to us. We are as much interested in them as we are in the deposits they bring.

Our officers do all in their power to make the children feel at home.

MORE HOME GARDENS URGED BY STATE

People who live in the cities and towns must give more attention to the home gardens and the raising of their foodstuffs in their own neighborhood, according to Secretary of Agriculture Fred Rasmussen in an address at Harrisburg on Tuesday. The tendency of people to leave farms and the shortage of labor at harvest time are very serious signs and indicate that unless some arrangements are made to pay the farmer better, the United States may in the not distant future have to import food, he declared.

Twilight School District needs a teacher for No. 2 school near Charleroi.

UTILIZING BARGES FOR SUPPLY DELIVERIES

The United States Engineering Department at Pittsburg is utilizing the rivers for the delivery of material to the various new locks under construction on the Ohio and Allegheny rivers. A couple of the big steel barges recently launched at Ambridge have been placed in commission to transport cement to lock and dam No. 30 on the Ohio and lock and dam No. 4 on the Allegheny. In this way a plentiful supply of materials will always be on hand, which will allow contractors to make better time with the work.

BIG TOWBOATS ARE SLOWLY PASSING AWAY

The wreck of the steamer Samuel Clarke, at one time the pride of the Joseph Walton & Company fleet, has been towed from Elizabeth to the Pittsburg wharf, where it will be converted into a wharfboat for one of the lower river packet companies. The Clarke had the distinction of being considered one of the finest towboats on western waters from an architectural standpoint, in addition to which she was also regarded as one of the best towing steamers of her class. One by one the old-time lower river fleet is passing away.

CAMP SITE WILL BE READY FOR STATE TROOPS

The state encampment site at Mt. Gretna will be ready for the opening encampment of the new National Guard of Pennsylvania early in August. Buildings are being erected and lines for regimental and battalion encampments have been established, while mess tents will be erected for all organizations. Arrangements of the State camp will differ radically from those of former years and will follow closely on the line of cantonments as outlined during the war.

We believe with Lincoln that this public will live forever or die by its own hand. We believe that within two decades that business and industry will be in harmony; that autocracy in either will have become a rejected policy; that co-operation will replace antagonism; that fair play and justice will rule.—Cincinnati Enquirer.

MIDNIGHT SHOOTING AT NEWELL YARDS

Some excitement was caused about midnight Sunday at the Newell yards of the Lake Erie, soon after the arrival of the "bummer." According to information a man recently promoted to be an engineer was ordered to the Newell yards to take out a train. Upon his arrival there he started for the yards, but on his way was waylaid by a number of men, said to be strikers, who endeavored to give him trouble. After a few heated words the young engineer, known by his associates as 'Brownie," drew a revolver and started firing. It is said that no one was injured.

CLEAN-UP SALE

Starting Friday of this week and continuing until Saturday, July 31st, this store will conduct its first "Clean-up" Sale. A sale involving all our seasonable merchandise in good salable condition and only lacking in quantity. As items are sold, they cannot be replaced at the same price as this sale will be strictly in accordance with the policy of the Fau Dry Goods Company to adhere strictly to its advertised items.

Below you will find numerous items at greatly reduced prices to close out that are now "just in season but in quantity a great deal less than our regular stock would have been. We would rather sell out our lines than carry them over; hence this sale.

You will therefore find it to your advantage to come in and look over these items as they are strictly bona-fide bargains in good merchandise.
